Internet Cookie Specification

To make our *Site* more comfortable for visitors, we use Internet cookies. Internet cookies are micro-scripts that allow us to compare new and existing visitors, make it easier to use the *Site*, and make the user experience even more enjoyable and effective in the future.
We do not process or store personal or personally identifiable information of users.

Fistnet Ltd., as *Processing Manager*, monitors the statistical visits of the "dotmetrics.net" web portal (hereinafter: *Page*). The information collected through cookies on the *Site* is of a statistical and functional nature and is limited to measuring: *visitor frequencies, device fingerprints.*

When using the *Site* for the first time, we notify the user of the use of the Internet cookies and seek his/her consent for their use and storage. Functionality cookies inform us of possible system errors, problems - in short, they allow the site to function properly.

By disabling cookies, users are still able to use the *Site*, but they will not be able to use all the services and functionality that they may provide. The same goes for measurement cookies and attendance.

1. DeviceKey internet cookie
This internet cookie collects information about your device. The purpose for which we use it is to provide a high quality view of the survey or some content on your device.

2. Session Temp internet cookie
Using this internet cookie we obtain information about a general site visit to the DotMetrics Research Network.

3. Session Temp Timed internet cookie
Contains information about the current site from which you access the DotMetrics research network.

4. Unique User Identity internet cookie
Contains information about the current user (your unique ID, creation time, current tracking mode and version)

5. Sit Id internet cookie
Indicates which site or what site category is in question.

If the *User* has accepted the use of cookies by the notice of the *Site* and subsequently changed his mind, by changing the browser settings of the *User's* computer (deleting or turning on the *Do-not-track* option) all the cookies will be deleted or disables from all of the Internet sites collected so far, including the *Site*. It is also possible to install an opt-out cookie from our Privacy Center.

A Secure Internet cookie to enable password and username storage is independent and cannot monitor other *User* activities such as browsing other websites, etc., because the processing of this information is not merged. Also, its acceptance is not necessary for the proper functioning of the web portal and mobile application.

You can find more information about turning off storage and deleting cookies for various web browsers and devices at the following links:
